Species protection programs in Flanders

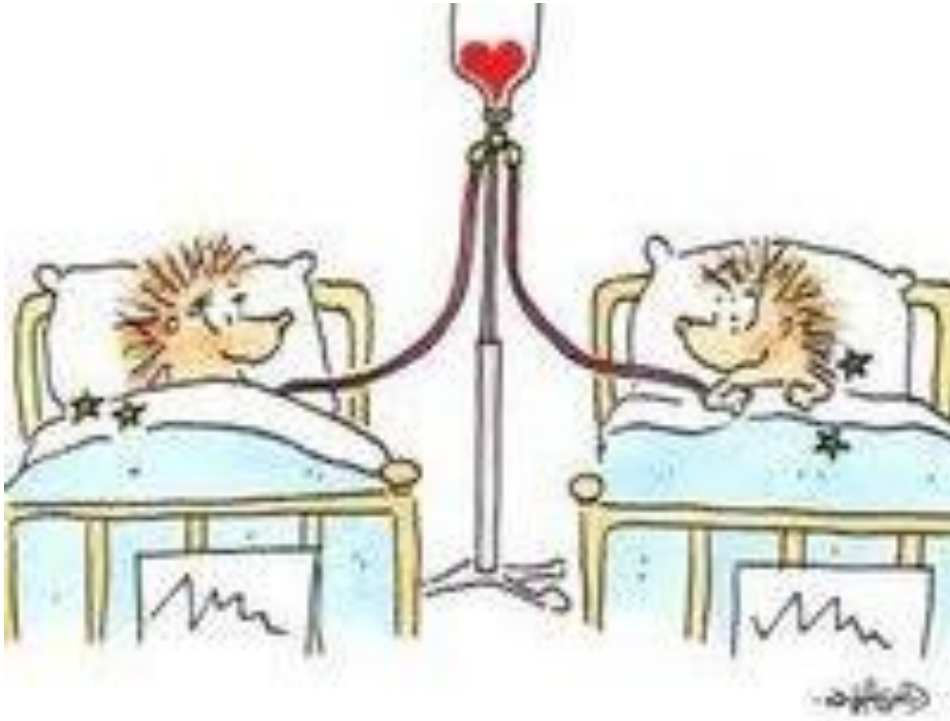

Legal Framework - Species Act (15/5/2009)

- ▶ Implementation Habitats & Birds Directives
- ▶ Species annex 1 SpeciesAct + all birds BD, species annex IV HD & annex II Bern convention

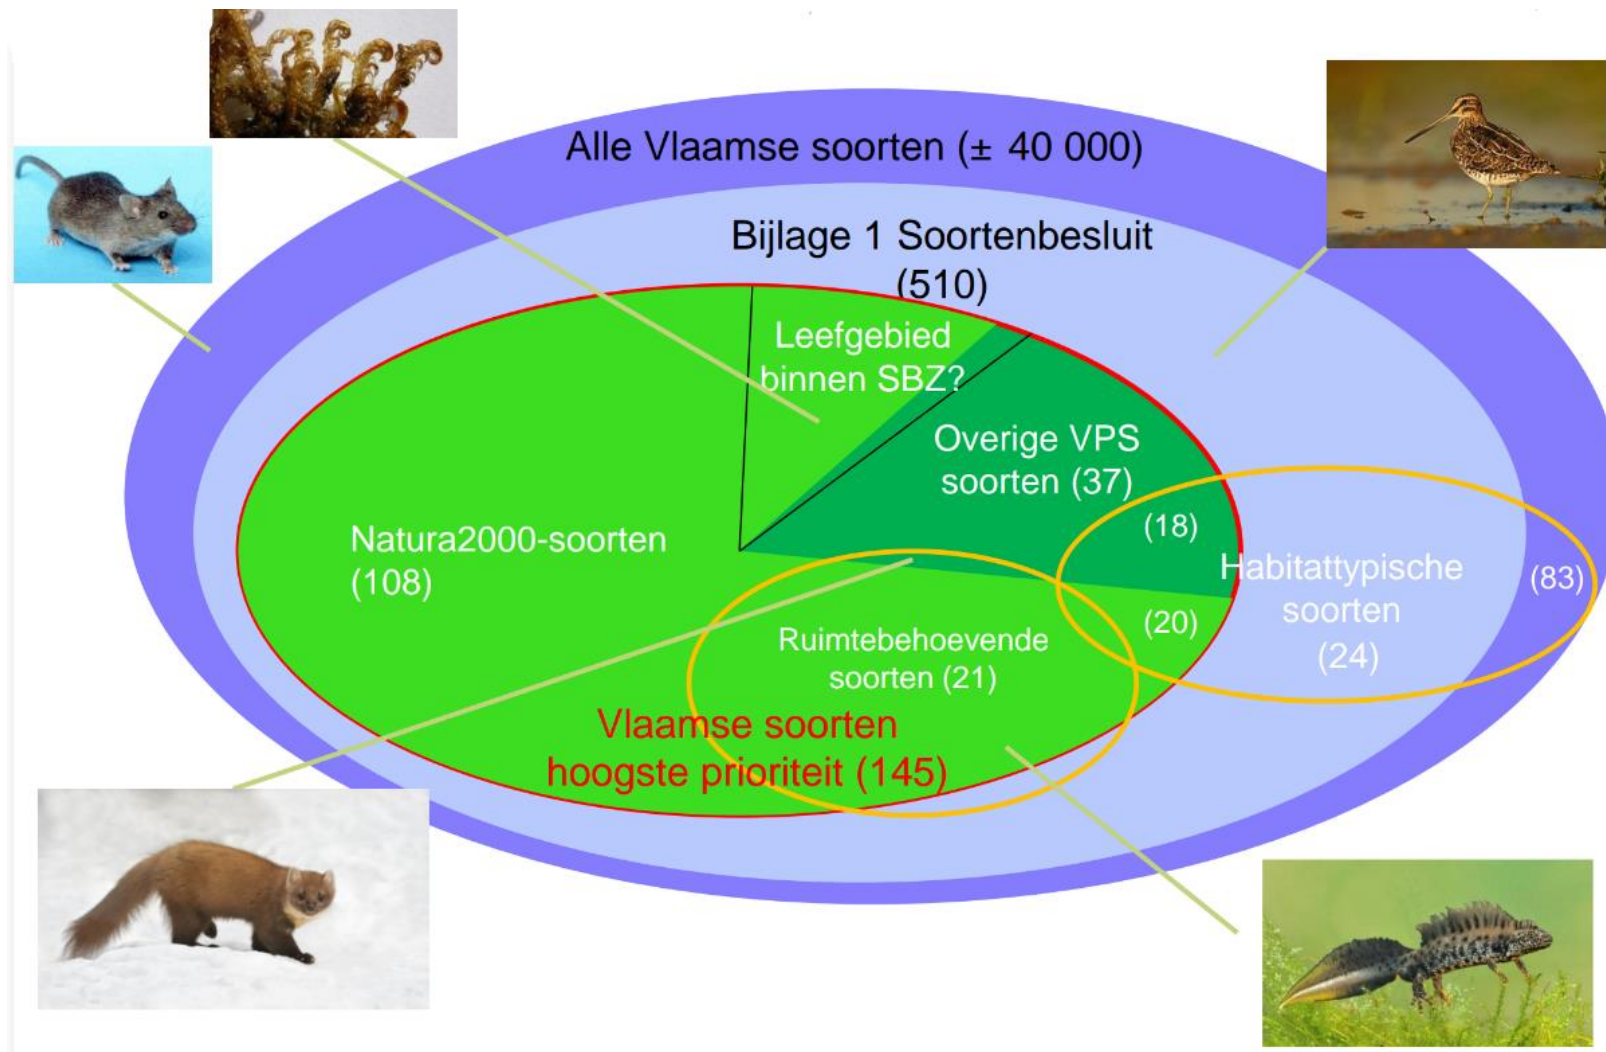

General approach

- ▶ SPP = lever
- ▶ Customised / specific
- ▶ Species in need of boost/drip
- ▶ Goal = favourable conservation status
- ▶ Secondary goal = species with similar habitat ('umbrella effect')
- ▶ Planning cycle: ecological analysis – goals – measures – actions – monitoring – evaluation

Species selection

Basic shortlist:
1439 protected species

Multi Criteria Analysis

- ▶ Cluster 1: Red List Status
- ▶ Cluster 2: Legislation: HD, BD, Ramsar
- ▶ Cluster 3: Natura 2000 policy: regional conservation objectives, habitat typical species, priority action in designation acts, species with extra surface area targets, ...
- ▶ Cluster 4 Flemish policy: species and habitat types of Community interest, ecological connections
- ▶ Cluster 5 Importance N2000-sites: % Population outside SPA/SAC
